

# Experiment-5

**Aim:** To implement Ordered and Unordered Drop-down List.

**Code:**

```
<!DOCTYPE html>
<html>
  <head>
    <title>Dictionary: World List</title>
    <link rel="stylesheet" type="text/css" href="./style.css" >
  </head>
  <body>
    <div id="navbar" class="header">
      
      <a>Home</a>
      <a>Login</a>
      <form class="search_form">
        <input type="text" placeholder="Search" size="50">
      </form>
      
    </div>
    <div class="main">
      <h1>Word List</h1><br><br>
      <form>
        <fieldset>
          <legend>Select List</legend>
          <label>Alphbet:</label>
          <select>
            <option value="a">A</option>
            <option value="b">B</option>
            <option value="c">C</option>
            <option value="d">D</option>
            <option value="e">E</option>
            <option value="f">F</option>
            <option value="g">G</option>
            <option value="h">H</option>
            <option value="i">I</option>
            <option value="j">J</option>
            <option value="k">K</option>
            <option value="l">L</option>
            <option value="m">M</option>
            <option value="n">N</option>
            <option value="o">O</option>
            <option value="p">P</option>
            <option value="q">Q</option>
            <option value="r">R</option>
            <option value="s">S</option>
            <option value="t">T</option>
            <option value="u">U</option>
            <option value="v">V</option>
            <option value="w">W</option>
            <option value="x">X</option>
            <option value="y">Y</option>
            <option value="z">Z</option>
```

```

        </select>
        &nbsp;
        <label>Other Lists</label>
        <select>
            <option value="all">All</option>
            <option value="hf1">High Frequency List 1</option>
            <option value="hf2">High Frequency List 2</option>
        </select>
    </fieldset>
</form>
<div class="alpha" id="A"><h2>A WordList</h2></div>
<div class="alpha" id="B"><h2>B WordList</h2></div>
<div class="alpha" id="C"><h2>C WordList</h2></div>
